

KUNAL SONAR

EDUCATION

Vishwakarma University

B.Tech - Computer Science and Engineering - CGPA - 8.50

2024-2027

Kondhwa, Pune, Maharashtra

K.K.Polytechnic , Nashik

Diploma in Computer Science - Percentage – 86.50%

2021 - 2024

Nashik, Maharashtra

Day Care Centre

SSC percentage – 91.60%

2020-2021

Nashik, Maharashtra

PROJECTS

1. ZenChat – Positive & Scheduled Chat System

- **Tech:** React.js, Firebase, Tailwind CSS
- **Features:** Focus Mode, Message Scheduling, Sentiment Analysis for positivity
- **Users:** Individuals, businesses, parents
- **Significance:** Combines well-being principles with communication efficiency

Description:

ZenChat is a web-based chat platform that promotes productive and healthy communication. With features like focus mode to minimize distractions, scheduled messaging for planning, and built-in sentiment filters to ensure positivity, it creates a safe and efficient environment for both personal and professional use.

2. Online Examination System

- **Tech:** Java Swing, MySQL
- **Features:** MCQ exams, Auto-submit on timer, Admin & Student modules, Authentication
- **Users:** Schools, colleges, institutes
- **Significance:** Automation, fairness, GUI + database integration

Description:

A desktop-based online testing system where students can attempt MCQ exams within a given time, with automatic submission when the timer ends. Admins can upload/manage questions while students securely log in, take tests, and view scores. It ensures fairness and streamlines the examination process.

3. Weather Forecast App

- **Tech:** Python, Tkinter, OpenWeather API
- **Features:** Live weather updates, City-based search, Simple GUI
- **Users:** General users
- **Significance:** API integration, real-time data applications

Description:

A Python GUI app that fetches real-time weather details such as temperature, humidity, and wind speed using the OpenWeather API. With a Tkinter-based interface, it allows users to check weather conditions for any city in an easy and interactive way.

4. SafetyNet – Women & Child Safety App

- **Tech:** Flutter (Dart), Firebase, Android Studio
- **Features:** Shake/Voice emergency alerts, Live tracking, Background video recording, Incident reporting
- **Users:** Women, children, parents, safety organizations
- **Significance:** Social impact, mobile sensors + geolocation + security

Description:

SafetyNet is a mobile app designed for emergency situations. It triggers alerts through shake detection or voice commands, shares live location with authorities, and records background video for evidence. With reporting features, it bridges technology and safety, making it a strong social impact application.
