

AYUSHI BHARAT VISPUTE

B.E. - Computer Science & Engineering

Ph: +91-8468887957

Email: ayushivispute.sit.comp@gmail.com

Pune, Maharastra, India - 410401

LinkedIn: <https://www.linkedin.com/in/ayushi-vispute-a4ab30360/>

PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Engineering student with strong knowledge of Python, Full Stack Web Development, and Data Structures & Algorithms. Passionate about building real-world software solutions and continuously learning new technologies. Experienced in developing projects such as e-commerce platforms, cab booking systems, API testing tools, and image processing applications using technologies like React.js, Flask, Node.js, JavaScript, and SQLite. Completed internships in Python Development and Full Stack Development, gaining practical exposure to software development workflows, API integration, backend development, debugging, and teamwork. Seeking opportunities to apply technical skills, contribute to impactful projects, and grow as a Software Engineer in a professional environment.

KEY EXPERTISE

Data Structures & Algorithms | Full Stack Development | React.js | Python | Database Management | Backend Development

EDUCATION

Sinhgad Institute of Technology B.E. - Computer Science & Engineering CGPA: 9.27 / 10	2023 - 2027
Loknete Gopinathji Munde Institute of Engineering Education & Research, Nashik Diploma Diploma - Computer Engineering - Computer Engineering MSBTE Percentage: 87.03 / 100	2024
Madhymik vidyamandir ranenagar nashik (kvn), Nashik 10 th MSBSHSE Percentage: 92.80 / 100	2021

INTERNSHIPS

TechnoHacks Solutions Pvt. Ltd. IT / Computers - Software Full Stack Development Intern	01 Jan, 2026 - 31 Jan, 2026
Key Skills: Backend Development Frontend Development Node.js Full stack Development React.js	
During my internship at TechnoHacks Solutions Pvt. Ltd., I worked on full-stack web development projects using React.js, JavaScript, and backend technologies. I gained hands-on experience in frontend and backend development, API integration, debugging, and responsive web design while improving my problem-solving and teamwork skills.	
Labmentix Pvt. Ltd. IT / Computers - Software Python Development Intern	01 Oct, 2025 - 01 Dec, 2025
Key Skills: Backend Development Problem Solving python Flask	
During my internship at Labmentix Pvt. Ltd., I worked as a Python Development Intern on multiple projects. I gained hands-on experience in Python programming, API development, backend development, and database management. I worked with Flask and SQLite while improving my problem-solving, debugging, and software development skills. The internship helped me understand real-world project workflows, teamwork, and industry practices.	

PROJECTS

Ride-Go – Cab Booking Web Application Mentor: Self Project Team Size: 1	01 Jan, 2026 - 15 Jan, 2026
Key Skills: React.js Next.js Leaflet OpenStreetMap Tailwind CSS Frontend Development Backend Development	
Project Link: https://drive.google.com/file/d/1MzLfROLHd6rxoAkom6lj85-sixOWFyyc/view?usp=sharing	
Developed a React-based cab booking web application that allows users to enter pickup and drop locations, view routes on an interactive map, and simulate UPI payments. Integrated real-time location detection and route visualization using Leaflet with OpenStreetMap. Designed responsive authentication pages and implemented ride booking functionality for better user experience. The project improved my skills in frontend development, API integration, map visualization, and full-stack web development	
API Testing Tool – Python Desktop Application Mentor: Self Project Team Size: 1	01 Oct, 2025 - 15 Oct, 2025
Key Skills: Python API Development Flask CustomTkinter Backend Development Desktop Application Development	

Project Link: <https://drive.google.com/file/d/1JZWfwOhTrCht6QBabHFzs1sPnPUhZ6v/view?usp=sharing>

Developed a Python-based API Testing Tool that allows users to send HTTP requests such as GET, POST, PUT, and DELETE and view API responses in different formats. Implemented features for adding custom headers, JSON request bodies, and maintaining request history. Designed a user-friendly desktop interface using CustomTkinter and integrated SQLite database for storing history and user data. The project enhanced my understanding of API handling, backend logic, database management, and desktop application development.

MyCraftopia – Full-Stack E-commerce Website

08 Sep, 2025 - 10 Oct, 2025

Mentor: Self Project | **Team Size:** 1

Key Skills: Flask Python HTML CSS Database Management Responsive Web Design

Project Link: <https://drive.google.com/file/d/1F02NoVhmBb1452IG-9k2ohedOGwjACX8/view?usp=sharing>

Developed a full-stack e-commerce website with features like product listing, shopping cart, user authentication, and responsive design. Implemented search and filter functionality to improve product discoverability and integrated database management using SQLite/MySQL. Worked on both frontend and backend development using Flask, HTML, CSS, and JavaScript. The project improved my understanding of web application development, database integration, and responsive UI design.

Background Remover

10 Sep, 2025 - 20 Sep, 2025

Mentor: Self Project | **Team Size:** 1

Key Skills: Python Image Processing NumPy Problem Solving OpenCV

Project Link: <https://github.com/AyushiVispute/BackgroundRemover>

Developed a Python-based Background Remover project that removes image backgrounds automatically and generates outputs that can be used as WhatsApp stickers. Implemented image processing techniques using OpenCV and NumPy for accurate background detection and removal. The project improved my understanding of computer vision concepts, image manipulation, and Python-based application development.

PUBLICATIONS / RESEARCH / WHITE PAPERS

Web Application for Self-Diagnosis and Drug Recommendation

04 May, 2024

Research Paper / Journal Publication | International Journal of Advanced Research in Science, Communication and Technology (IJARSCT) | **Mentor:** Prof.B.S.Chaudhary | **No. of Authors:** 5

Key Skills:

PHP HTML CSS Web Development JavaScript Healthcare Technology Database Management MySQL
Problem Solving

Published a research paper titled “Web Application for Self-Diagnosis and Drug Recommendation” in the International Journal of Advanced Research in Science, Communication and Technology (IJARSCT). The research focused on developing a web-based healthcare application that helps users perform preliminary self-diagnosis and receive medicine recommendations based on symptoms entered in natural language. The system aimed to reduce the time required for searching healthcare information and improve accessibility to medical guidance.

ACHIEVEMENTS

- Published research paper.on "Deefake Detaction Using Ai"
- Selected for Web Development Internship.
- Built Multiple Real-World Full Stack Projects

ASSESSMENTS / CERTIFICATIONS

Python

Provider: Cognitive Class (IBM Developer Skills Network)

Full Stack Web Development

Provider: Apna college

Key Skills:

HTML JavaScript React.js Express.js MongoDB Full Stack Development Database Management REST APIs

Successfully completed the Delta Full Stack Web Development course from Apna College. The course covered frontend and backend web development concepts including HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, and database management. Gained hands-on experience in building responsive full-stack web applications, implementing backend APIs, and understanding complete web development workflows. The course enhanced my problem-solving, development, and software engineering skills.

SEMINARS / TRAININGS / WORKSHOPS

Code War – Sinhgad Techtonic 2026 Institute Name: Sinhgad Institute of Technology & Science 09 Apr, 2026 - 10 Apr, 2026

Key Skills: Problem Solving Competitive Programmimg

Participated in Code War at Sinhgad Techtonic 2026, a national-level techfest organized by Sinhgad Institutes, focusing on coding challenges and problem solving.

PERSONAL INTERESTS / HOBBIES

- Web Development
- Coding and Problem Solving
